#### FEEDING RECOMMENDATIONS:

This is designed for self feeding to dairy heifers and beef cattle. Livestock should consume 150-180 grams per head per day based on a 454 kilogram animal. Consumption may be controlled by the distance the tub/block is placed from the water source. Tubs/blocks closer to water will be consumed faster than tubs/blocks further away. Supply one tub/block for each 20 to 25 head of cattle. Animals must have free access to quality forage and clean fresh water.

#### CAUTION:

- 1) Do not feed to sheep, due to possible copper toxicity.
- 2) Do not feed in association with another feed containing supplemental selenium.
- 3) Directions for use must be carefully followed.

#### INGREDIENTS:

Beet Molasses, Monocalcium Phosphate, Dicalcium Phosphate, Canola Meal, Corn Distillers, Dried Grains with Solubles, Calcium Carbonate, Magnesium Oxide, Soybean Meal Solvent Dehulled, Soybean Oil, Manganous Oxide, Zinc Oxide, Vitamin E, Zinc Sulfate, Copper Polysaccharide Complex Registration #981410, Iron Polysaccharide Complex Registration #981408, Manganese Polysaccharide Complex Registration #981409, Zinc Polysaccharide Complex #981407, Basic Copper Chloride Registration #990370, Manganese Sulfate, Dried Aspergillus Oryzae Fermentation Extract, Sodium Selenite, Vitamin A Registration #990919, Rice Hulls, Yeast Autolysate Dehydrated, Ethylenediamine Dihydriodide, Mineral Oil, Vitamin D3 Registration #990017, Cobalt Carbonate, Cobalt Sulfate, Chlorine Chloride, Biotin, Folic Acid, Thiamine Mononitrate, Calcium Pantothenate, Pyridoxine Hydrochloride, Niacin, Riboflavin, Vitamin B-12.
